Statement Regarding William Becker

William Becker, DE, Cleveland, Ohio (#440) resigned October 13, 1972 effective immediately. In resigning he voluntarily stated that he was a homosexual person and that he did not want to involve the council or the Boy Scouts of America in any problems growing out of his relationships. The circumstances were these:

He asked to see Scout Executive John Shanks to discuss a problem. He opened the conversation by generally stating, "John, I want to tell you I am a homosexual. I have had several affairs. I recently had a homosexual relationship with an eighteen year old high school boy who had previously had affairs with other men. I am resigning from the council and profession so as to not embarrass the Boy Scouts of America."

John Shanks consulted with the council Health & Safety Chairman Dr. Robert Williams, who is a staff member at the University Hospital, Cleveland.

Dr. Williams told Mr. Shanks to separate Becker from the profession as quickly as possible and made an appointment for Becker to go to a psychiatric clinic for consultation.

After four appointments for consultation, Becker saw Mr. Shanks and suggested that he might be willing to stay on the staff.

Mr. Shanks stated that this was not acceptable and he should formally resign. Becker wrote a letter of resignation and left the service center. He has not returned and it is understood he is either seeking or has found work in the radio industry. No inquiries re employment have been received from any prospective employees.

Becker's work for the Greater Cleveland Council was satisfactory to good with an apparent potential to be very good.

About four months before, an incident occurred which, in looking back, was very significant.

A police officer called and said that a young boy at a local shopping center had reported to the policeman that a man had approached him, complimented him on how neatly he was dressed and suggested they walk together. The boy ran to the policeman and identified Becker as the man. Becker admitted talking to the boy but volunteered that he was a professional Scout executive interested in boys only as prospective Scouts. He denied any other intentions and appeared normally upset at the accusation. When asked

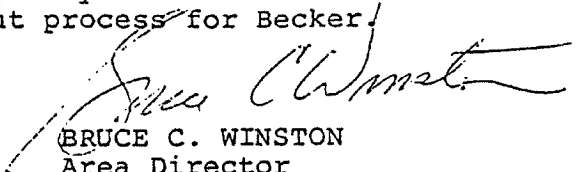

*an interview
of Shanks and
was assured them of his innocence*

about the incident at the time of resignation Becker admitted he had improper intentions when he talked to the boy.

The above synopsis was conveyed by Mr. Shanks to me on December 7, 1972 as a part of the checkout process for Becker.
